

Remarks:

The amendments entered to the claims are not intended to disclaim any patentable subject matter, and are to be entered without prejudice or traverse. The amendments to the claims are based on those identified in and attached to the *PCT – International Preliminary Report on Patentability* issued during the international stage proceedings of PCT/DK2004/000790. The amendments entered herein address and remove multiple dependencies from the claims of the parent PCT application or to otherwise recast the claims into a form more amenable to US patent practice.

Respectfully Submitted;

Andrew Parfomak
